(a) A State fish and wildlife agency certifies the number of paid license holders by responding to the Director's annual request for the following information:

(2) The number of people who have paid licenses to fish in the State during the certification period.

(b) The agency director or his or her designee:

(1) Must certify the information at paragraph (a) of this section in the format that the Director specifies;

(2) Must provide documentation to support the accuracy of this information at the Director's request;

(3) Is responsible for eliminating multiple counting of the same individuals in the information that he or she certifies; and

(4) May use statistical sampling, automated record consolidation, or other techniques approved by the Director for this purpose.

(c) If an agency director uses statistical sampling to eliminate multiple counting of the same individuals, he or she must ensure that the sampling is complete by the earlier of the following:

(b) Correspond to the State's fiscal year or license year;

(c) Be consistent from year to year unless the Director approves a change; and

(d) End at least 1 year and no more than 2 years before the beginning of the Federal fiscal year in which the apportioned funds first become available for expenditure.

§ 80.33 How does an agency decide who to count as paid license holders in the annual certification?

(a) A State fish and wildlife agency must count only those people who have a license issued:

(1) In the license holder's name; or

(2) With a unique identifier that is traceable to the license holder, who must be verifiable in State records.

(b) An agency must follow the rules in this table in deciding how to count license holders in the annual certification:
